Times have changed.

Once, making a marketing video meant writing a script, finding a set, hiring a producer, casting actors, editing the footage, and the list goes on...

But luckily, today, you can make a stunning video for your business in 3 simple steps!

**Step #1: Select footage**

Use our keyword search to browse through 20M+ clips and find the perfect one for you.

**Step #2: Customize your video**

Write your own captions, upload your original images and clips, select a music track and finalize by adding your business's logo.

**Step #3: Publish and share!**

Download your video or directly share on whatever social platform you choose.
